Menya's Philosophy and Strategy

Menya is the Kikuyu word for **knowledge**. The Kikuyu are one of the oldest people groups on earth, surviving some of the harshest conditions on the planet in East Africa for centuries. Accomplishing such a feat in such a location requires establishment of **security processes** and **innovative collaboration**.

Menya gives your organization the **skills, strategy, tools, and resources** to ensure your systems and processes are secure and reliable. By using information assurance best practices and employing the highest **qualified, and certified personnel**, Menya ensures project outcomes that deliver tangible results. The secret to Menya's success is a hands-on, consultative approach that identifies the root problem, as opposed to just addressing the symptoms.

Benefits of Menya's Designations

8(a) Certified

- Sole Source Awards (up to \$4 Million)
- Reduced Paperwork
- Reduced Acquisition Timeline
- Credit Towards SBA Goals and Objectives

Service Disabled Veteran Owned
